

SSL exhibited at this year's Railtex Exhibition held at Earl's Court.

SSL's stand attracted a great deal of interest from many areas – Network Rail, London Underground, Train Operating Companies, Competitors, Suppliers and Consultants.

The Signalling Solutions stand was focussed around three main areas:-

- Integr8 – SSL's Modular Signalling Solution
- Atlas – SSL's ERTMS Solution
- ICONIS – SSL's Rail Traffic Management Solution

SSL's Signalling Engineering Manager, John Hinchliffe, presented a technical seminar on the subject of Modular Signalling, which was very well attended and received.

If you require further information regarding the technology shown on the stand please contact [info@signallingsolutions.com](mailto:info@signallingsolutions.com)
